Cynthia Adams	8806 18th Ave	1/6/15	X		Excellent. I think that would be the best for the neighborhood.

					This parking rule has always confused me. Allowing parking on the east side will allow people in the apartment complexes easier access to their vehicles where they can tune their bass systems well into the night, while also leaving trash in their own yard. This may also provide a shorter distance in which to wonder if asking their neighbors across the street for money is a good idea. Furthermore, while making exchanges of people/money or whatever else, now at least they won't have to worry about parking.

					The simple solution to this problem is to take care of the apartment parking at 8808 (I believe), there is a tenant there that takes up at least 3 places, a boat, a collector car and his car. That puts other tenants out on the street, whoever parks in the street doesn't move their vehicles when it snows and the plow goes around these and pushes all that into our driveway. AFTER we have been plowed out. I feel it's silly for the city to have to change parking & signs when one person is causing an expensive change of signs and what not. Thanks so much for listening to us on 18th Ave.

					The choice to keep the existing parking regulations make the most sense. It has worked well for the 50+ years we've lived here. The culprit is the owner of 8807 who does not provide off street parking for his residents. He has a boat and 2 cars parked in his lot, leaving no room for some of his residents. We get along well in this neighborhood because we are considerate of each other for the most part. This guy doesn't really care about any of his neighbors. Thanks for paying attention to this problem it means a lot to us.

					Leave parking as is. This worked for decades and see no reason for change. I prefer a more free flow of traffic which would be hindered if parking was permitted on both sides.
